

Sirs,I have just learned that the N.A.B. wishes to curtail some of the services that I am paying X.M. sattelite to receive.I respectfully urge the FCC to reject NAB's petition 14-160. I enjoy this sattelite service very much Big business seems to be taking over every facet of business these days.I would hope that they dont suceed in limiting what I can even listen to.

Thanks for your attention in this matter.

Sincerely,

Karl Esslinger
